

Standing up to cancer takes a village. Welcome to the village.

When facing cancer, having the right treatment plan offers the strongest hope. That's why your employer offers cancer care through Carrum Health.

If you or a covered family member (age 18+) is diagnosed with breast, thyroid, colon, or prostate cancer, or you are exploring CAR T-cell therapy, your Carrum Health benefit helps you get the highest-quality treatment at top cancer centers in the country — **at little or no cost to you.***

The Carrum Health benefit covers comprehensive treatment including surgery, radiation therapy, chemotherapy and more. Plus, you'll have dedicated support and a cancer nurse to guide you every step of the way.

Welcome to the village. Welcome to Carrum Health.

*With the exception of second opinions, individuals enrolled in a high-deductible plan must first meet their deductible, but oftentimes copays and coinsurance will be waived. Second opinions are typically provided at no cost to members and do not require payment of any deductible. Per IRS rules, a portion of any covered travel expenses will be reported as taxable income to the covered member.

“

The program is excellent. The level of care you receive is outstanding. It takes a lot of the worry and concern about dealing with certain logistics away and allows you to focus on working towards healing... I don't know how I could have done this on my own."
