- My name is Stacy Duuton, I am a state employee and member of AFSCME Local 4041.
- We ask the PEBP board to support SB360.
- For too long, rank and file state employees have lacked having a say on issues that affect our lives, our working conditions and the services we provide.
- We need to have a say in our health care, because management doesn't always know what's best for workers and our families.
- Rank and file workers should have a say in their health care and retirement, and under current system, there's no guarantee that real rank and file workers will be there to represent interests of vast majority of state workers.
- Having an organization that represents thousands of state employees provide a list for the governor to choose from ensures far greater input from workers than if the governor--any governor, not picking on this one--continues to get to choose board members with no assurance that it's someone who will speak for thousands of workers and their families.
- We appreciate that most PEBP board members do their best to make the best decision for the thousands of state employees enrolled in PEBP health insurance plans. But good intentions doesn't replace our actual lived experience.

Hello,

My name is Stephanie Dube. I am writing to say that I support SB 360.

We appreciate that most PEBP board members do their best to make the best decision for the thousands of state employees enrolled in PEBP health insurance plans. But good intentions doesn't replace our actual lived experience.

Rank and file workers should have a say in their health care and retirement, and under current system, there's no guarantee that real rank and file workers will be there to represent interests of vast majority of state workers.

Thank you,
Stephanie Dube
AFSCME Member Local 4041

Subject: I'm in SUPPORT of SB360!

Greetings!

My name is Peggy Bohn. I am a 27+ year Nevada State Employee, Veteran and active AFSCME Local 4041/NNCLC member. I am writing in SUPPORT of SB 360!

During my tenure as a Nevada State Employee, I have reached out to my PEBP board representatives and voiced my opinion and they have done an awesome job! However, those representatives are financially affected by the PEBP changes differently than I as many of them are higher on the pay scale than most of my colleagues. Therefore, in an effort to continue on the theme of equality especially during COVID, I encourage you to PASS SB 360! The 'working class' needs to have a VOICE in the decisions being made by this committee regarding our benefits, costs and in the best interest of a majority of that 'working class'.

I do appreciate the work performed by many of the members of the PEBP board members but we need to expand the representation to best meet more needs of the State Employees. Please allow us representation.

If you have any additional questions, please contact me.

Thank you for your time,
Peggy Bohn

Subject: SB360 Public Comment

It is imperative that state employees that are seated on the PEBP Board represent the largest number of state employees. This is done by requiring that state employees seated as PEBP board members are members of the professional organization that represents that largest number of state employees. As a state employee with a family, I rely on the HMO-type benefit to ensure that I am able to handle any medical needs that arise unexpectedly. I am concerned that recent Board decisions will erode the HMO-style option and jeopardize my family's health. Having a PEBP board member that belongs to the professional organization representing the largest number of state employees, assures me that my voice will be heard and represented in the PEBP Board discussions about my benefits. I urge you to support SB360.

Thank you,
Daphne DeLeon

Subject: SB360

Good afternoon all Committee Members.

My name is Deborah Hinds.

I am a State employee from Adult Mental Health and also serve as a Vice President /Regional Vice President within the Northern part of NV. Local 4041-AFSCME

I support SB360 not only as an immediate link with PEBPS/PERS with our Members to enhance communication and sense of building positive relationships. There will also be a large group of State Employees whom will be retiring within the next two years wanting to feel secure about their benefits after leaving State service. It will help the bridge the link to our AFSCME Retirees' Benefits.

Thank you for accepting emails and for your time in reading.

Respectfully,

Deborah L. Hinds

Subject: Support SB 360

Dear PEBP Board members;

My name is Lorayn Walser, I am a state employee for 19 years and member of AFSCME Local 4041.

I am asking the PEBP board to please support SB 360, which requires a Governor to appoint the two state employee representatives to the PEBP board, from a list provided by AFSCME Local 4041.

We deserve to have a say in our health care and retirement decisions, as these issues affect our lives and families.

Having an organization that represents state employees actively involved in appointments to the PEBP board, means we will have a greater voice in participating in decisions affecting our futures.

Thank you again for considering the well-being of state employees, and for supporting SB 360.

Lorayn Walser
